

National Manufacturing Co., Inc. is a leading supplier of deep and shallow draw metal forming services supplying a broad variety of critical service components to sophisticated customers worldwide. Continued growth has created more opportunities for talented individuals to join our team.

We are looking for a Mechanical Technician responsible for setting up dies and operation of various metal stamping presses. Duties also to include troubleshooting and adjustments of the press and tooling, material loading/unloading, maintenance of press, use of measuring equipment and recording of data.

Individual must have knowledge on modifying mechanical components or assemblies for products, such as industrial equipment and machinery, power equipment, machine tools, and measuring instruments. Sets up and conducts tests of complete units and components under operational conditions to investigate proposals for improving equipment performance or other factors.

Skills/Qualifications:

- 5 years metal forming experience with strong technical skills.
- Need to demonstrate the capability to develop a good technical understanding of our process and competencies.
- Need to be able to understand the customer's technical requirements and work with our engineering and quality team in meeting customer expectations.
- Strong technical orientations, able to read blue prints,
- Prior experience in medical, aerospace, battery, military markets preferred
- Strong communication and interpersonal skills.
- Minimum High School degree.
- Metal forming experience a plus

We offer a competitive salary and benefits and an opportunity for growth. Interested applicants should submit their resumes via e-mail to jmartinez@natlmfg.com or mail at:
